Dear Stefan & Petra

June 2016

Hello from Options Care Centre! Usually you hear from me when we send our thank you letters...here are some notes of appreciation to you from the staff...

Thank you for your generosity that has enabled me to live out my passion of working with broken and wounded men. Your support has allowed me to reach many young men who are struggling with issues such as: identity, authenticity, culture and manhood as a result of growing up without their fathers.

Many thanks, Shaun

Thank you for giving me the opportunity to counsel clients in a pregnancy crisis, giving them hope in desperate situations. It enables me to show them that their voice has meaning and that there is someone who listens. It's because of you that so many clients find hope where it seems hopeless.

Cora

Knowledge is power and with knowledge comes responsibility. Thank you for being instrumental in bringing hope and freedom through the Education and Training ministry.

Monia, Education and Training Coordinator

Thank you so much for all of your donations. We appreciate everything you give. It helps me to give to the HIV Support Group members who are in great need.

Vuyelwa

Thank you for your support. Each day starts with desiring what God desires for management and guidance for the administration office so that there is time management and order at Options. Once a week I am able to use my creative skills to teach 6 people to sew and to make things from bits of material.

Val

I just want to thank you for giving to Options. Because of this I am able to go to the hospital

with three volunteers to support the mothers with premature babies while they wait for many weeks for their babies to grow so they can take them home. We love to support the "kangaroo moms" by doing different programs with them each week. Lisa (our nurse)

Due to the rising costs of materials needed to create our cards, your financial support has helped us to purchase glue, pritt and other essential materials in order for the Workshop to create significant income for our cardies. I thank you for helping to uplift the lives of 17 unemployed single moms. Bless you! Janet

My passion is working with the teen moms. I love seeing what they can accomplish...finishing school and studying further. The most important thing is seeing them grow spiritually and have a relationship with Jesus Christ. I love seeing them stand on their own two feet and be independent. Thank you! Jeanette

Thank you for supporting the ministry of Options. It is so important that people know truth and are able to make informed decisions. Your generous giving enables me to be a part of assisting them to do this! Lurlyn

Thank you for making a difference!

With love from Options  
Laurie and the staff

*your support is absolutely wonderful!*
